

Make Your Own Paper!

Materials :

- Water
- Scrap Paper
- Plastic Container/ Bowl
- Blender (Optional)
- Cloth / Old t-shirt
- Plastic / Baking Tray

Step 1.

Cut or rip up your scarp paper into small pieces.

Step 2.

Fill up your bowl / plastic container with water and soak your paper for a few hours / overnight.

Step 3.

Take the soggy paper and squeeze out the excess water. Then, blend the soaked paper into a pulp (do this with an adult) OR squish the paper with your hands until it becomes a pulp.

Step 4.

Place the pulp onto the cloth/ t-shirt and spread the pulp into a flat layer. Squeeze / Press the pulp onto the cloth / t-shirt to remove excess water

Step 5.

Carefully carry the cloth onto the tray and leave it outside to dry. You can place it near a fan to dry it quicker.

Step 6.

Once the paper is dried carefully peel off the paper.

Yay! You've successfully made your own paper!
